

## Job vacancy

### **Technician – ICP** Scientific Operations – Operations

#### Work @ Quality Assistance s.a.

Quality Assistance provides the pharmaceutical industry with all the analytical services required by EMA and FDA regulations for the development and marketing of innovative human medicinal products.

Quality Assistance is a European benchmark company in the analytical sciences.

With over 30 years' expertise in the development and validation of analytical methods, cutting edge equipment and high level of Quality Assurance, Quality Assistance has gained the trust of the largest international pharmaceutical groups and numerous biotechnology companies based in Europe and the United States.

#### **Quality Assistance offers you work in:**

- The innovative human health sector
- A growing evolving company
- A rigorous dynamic team
- An international working environment
- Spacious premises in pleasant surroundings

#### **Quality Assistance also provides:**

- In-service training adapted to your profile and position
- A sector compliant remuneration package including numerous fringe benefits (luncheon vouchers, hospitalisation and ambulatory cares insurance, pension plan, bonus, etc.)

#### Job description

Quality Assistance works on innovative medicinal products under development (preclinical and clinical phases). The projects are on the validation and/or application of analytical methods for the characterisation and quality control of (bio)molecules.

Working in a team involved in projects outsourced by our clients, you will validate and apply analytical methods, based on a protocol. You will also process data and write reports and associated supporting documents.

The analytical technique used is **mainly ICP** (Inductively Coupled Plasma).

Depending on your skills and ambitions, progression in the job is possible.
