

Job vacancy

Scientist – (U)HPLC

Scientific Operations – Operations

Work @ Quality Assistance s.a.

Quality Assistance provides the pharmaceutical industry with all the analytical services required by EMA and FDA regulations for the development and marketing of innovative human medicinal products.

Quality Assistance is a European benchmark company in the analytical sciences.

With over 30 years' expertise in the development and validation of analytical methods, cutting edge equipment and high level of Quality Assurance, Quality Assistance has gained the trust of the largest international pharmaceutical groups and numerous biotechnology companies based in Europe and the United States.

Quality Assistance offers you work in:

- The innovative human health sector
- A growing evolving company
- A rigorous dynamic team
- An international working environment
- Spacious premises in pleasant surroundings

Quality Assistance also provides:

- In-service training adapted to your profile and position
- A sector compliant remuneration package including numerous fringe benefits (luncheon vouchers, hospitalisation insurance, pension plan, etc.)

In addition to the fringe benefits received by all the personnel, you will also be provided with a company car.

Job description

Quality Assistance works on innovative medicinal products under development (preclinical and clinical phases). The projects are on the development, validation and/or application of analytical methods for the characterisation and quality control of (bio)molecules.

Working in a team involved in projects outsourced by our clients, as a Scientist, you will develop, validate and apply analytical methods, based on a protocol and with some scientific assistance. You will also process data and write reports and associated supporting documents.

The analytical techniques used are **liquid chromatography** coupled to all types of detector (MS, UV, DAD, fluorescence, MALS, RI, CAD, PAD, conductivity), gas chromatography and capillary electrophoresis.

Depending on your skills and ambitions, progression in the job is possible.

Education

Master / Engineer (or PhD), specialisation Analytical Chemistry or Biochemistry.

Skills

Technical skills

Required

Very good theoretical knowledge and practical experience of **HPLC – Dionex, HPLC - Waters Alliance, BioAlliance** and **UPLC - Acquity, H-Class, I-Class**.

Pluses

Good knowledge and practical experience of **GC – Gas Chromatography** and **Capillary Electrophoresis** on small molecules (CZE, MEKC, chiral CE).

General skills

Pluses

Knowledge of the pharmaceutical sector and GMP quality norms.

Language skills

In addition to proficiency in French, good command of English

Experience

Required

At least 2 years' practical experience in similar position and in development, validation and application of analytical methods in aforementioned techniques.

How can you apply?

Send your application now, for the attention of Mr Bernard Adant, Talent Acquisition Manager, to recrutement@quality-assistance.be or consult the Careers page on our website <http://www.quality-assistance.com/careers/jobs>.

Address: Technoparc de Thudinie 2, 6536 Donstiennes, Belgium
