

Service Engineer

DIAsource ImmunoAssays® S.A. (A BioVendor Group company) is an international diagnostic company with more than 30 years of experience in In-Vitro Diagnostic. Our expertise is in the development, manufacturing and marketing of clinical diagnostic products in the field of endocrinology, auto-immunity and infectious diseases.

We are a dynamic medium-sized Belgian company (80 employees), based in Louvain-La-Neuve.

To support the development of our company, we are recruiting a Service Engineer for our offices in Louvain-la-Neuve.

Mission :

The Service Engineer will be responsible for technical aspects of our In-vitro Diagnostic instrumentation portfolio including small lab instruments and fully automated immunochemistry analysers (ELISA, RIA, Autoimmunity & CLIA).

Fonction :

- You will be in charge of troubleshooting issues coming from our worldwide net of distributors and end-users in the direct countries ;
- You will ensure a good follow-up of all technical complaints ;
- You will be in charge of maintain records and performance reports of instruments ;
- You will be in charge of validating instruments before shipping according to internal validation and in compliance with the regulation ;
- You will be in charge of instrument installations and you assist our distributors/customers ;
- You will give service trainings to our distributors ;
- You will ensure timely reporting, good communication and efficient work tracking ;
- You will participate to the products validation on automates.

Profil:

- Your background is technically oriented (bachelor in electromechanics, automation, electronic...) ;
- You are fluent in French and English. Dutch & Spanish is an asset ;
- You have a first experience as service engineer preferably in the field of IVD instrumentation and automation ;
- You are willing to travel abroad (40% of time) ;
- Strong analytical and problem solving skills ;
- You are comfortable working in a team environment ;
- You are customer oriented.

- You are willing to move toward success, be proactive and have positive spirit even under stressful circumstances.
- You are flexible and comfortable working in a cross-cultural environment.
- You master Microsoft applications: Excel, Word, Outlook.

What we offer:

- An exciting job within a growing international company ;
- A job in a human-sized, dynamic, respectful and professional environment ;
- Internal/external trainings opportunities for your personal development and your continuous improvement.
