

AVERTIM is an **Innovation & Management Consulting Group** dedicated to building the bridge between Strategy and Operations. Founded in 2007 and Avertim has grown to over 250 consultants, active in several European countries, advising clients on their major challenges. Our mission is to translate client's strategy into actionable projects and enable Business, Technology and Management alignment.

Avertim is specialized in selected high-level services, across a diversified range of strategic sectors including: **Life Sciences & Chemicals**, Banking & Insurance, Utilities, Transport & Mobility, Telecommunications & Media.

Today Avertim's Life Science sector represents one of the most important parts of our activities. Avertim's consultants work with international market leaders to advise them in Quality Assurance, Qualification/validation, Production, R&D...

Your responsibilities during different projects could include:

- Review records, investigate deviations or non-conformities
- Process optimization
- Troubleshooting & root cause analysis
- Be involved in the design and/or management of clinical studies
- Translate scientific principles to industrial applications
- Write technical documentation such as validation documents
- Be first point of contact for certain projects/processes/products

Your profile:

- **Master degree** or PhD in Sciences, Industrial or Bio- Engineering, Pharmacy or Life Science related
- You are an **excellent communicator** both orally and in written expression
- Fluent in **French and English**
- **First experience** (internship,...) is a plus
- Knowledge of GxP / validation / qualification is a plus

Join us and you will:

- Be **surrounded and supported** by qualified people
- Get **coached by senior professionals** who will support your growth as a professional and as a person
- Work on **challenging projects** in exciting environments and industries
- Work with **sector's leaders**
- Have great opportunities to develop your career through an **established career and training path** with room for professional advancement
- Be part of a winning team and a fast-growing company and get competitive compensation package with **great benefits**
