

## Specialist ICP-MS Scientific Operations

### SCOPE

To face our constant growth, we are currently actively looking for a **Specialist ICP-MS**

You will work on **innovative (bio)pharmaceutical products** under development (non-clinical and clinical phases).

You will be part of a team involved in projects outsourced by our clients.

Those projects are related to the development, validation and/or application of analytical methods based on a protocol for the characterisation and quality control of (bio)molecules.

### YOUR MISSION

You will report to the Technical Leader.

You will be part of a team of 6 people.

In this role, you will be accountable for:

- Performing daily laboratory activities related to method development, validation and application depending on the client project
  - Performing analyses
  - Processing data
  - Writing reports and associated supporting documents
  - Presenting/discussing results
- Applying methods for QC and stability studies

### PROFILE

Master's degree or PhD in Chemistry or Biochemistry

#### Required

- Very good knowledge of **ICP-MS** with experience in development, validation and application of analytical methods
- Relevant working experience in a similar position in a regulated environment
- Good writing skills both in French and English (writing scientific documents, reports, protocols and mails)

#### Plus

- Good theoretical knowledge and practical experience of **HPLC, Ion chromatography**
- Working experience in a GMP environment

## Work @ Quality Assistance s.a.

**Quality Assistance** provides the pharmaceutical industry with all the analytical services required by EMA and FDA regulations for the development and marketing of innovative human medicinal products.
